## If swallowed

Never make him/her vomit by force. Rinse mouth with water. Consult a physician.

## 4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

## 4.3 Indication of any immediate medical attention and special treatment needed

No data available

## 5. Fire-fighting measures

## 5.1 Extinguishing media

## Suitable extinguishing media

Dry powder, Carbon dioxide, Alcohol-resistant foam. Use water spray or fog to control fire fumes.

## Unsuitable extinguishing media

Do not use a solid water stream.

# 5.2 Special hazards arising from the substance or mixture Specific hazards

Exposure to fire may cause containers to rupture / explode.

#### **Hazardous combustion products**

If involved in a fire, the following toxic and / or corrosive fumes may be produced by thermal decomposition: Carbon dioxide and Carbon monoxide

## 5.3 Advice for fire-fighters

#### Specific methods

If possible, stop flow of product. If leaking, do not extinguish a flame unless absolutely necessary. Spontaneous / explosive re-ignition may occur. Extinguish any other fire. Move container away or cool with water from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems.
