General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.

If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact

Wash off with soap and plenty of water, Consult a physician.

In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

If swallowed

Never make him/her vomit by force. Rinse mouth with water. Consult a physician.

4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

4.3 Indication of any immediate medical attention and special treatment needed

No data available

5. Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing media

Dry powder, Carbon dioxide, Alcohol-resistant foam. Use water spray or fog to control fire fumes.

SAFETY DATA SHEET

Unsuitable extinguishing media

Do not use a solid water stream.

5.2 Special hazards arising from the substance or mixture

Specific hazards

Exposure to fire may cause containers to rupture / explode.

Hazardous combustion products

If involved in a fire, the following toxic and / or corrosive fumes may be produced by thermal decomposition: Carbon dioxide and Carbon monoxide

5.3 Advice for fire-fighters

Specific methods

If possible, stop flow of product. If leaking, do not extinguish a flame unless absolutely necessary. Spontaneous / explosive re-ignition may occur. Extinguish any other fire. Move container away or cool with water from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems.

5.4 Further information

No data available

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Remove ignition sources and ventilate the area. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid raising dust and avoid contact with skin and eyes.

6.2 Environmental precautions

Prevent spills from entering sewers, watercourses or low areas.

6.3 Methods and materials for containment and cleaning up

Do not touch spilled material without suitable protection (See section 8). After material is completely picked up, wash the spill with soap and water and ventilate the area. Put all wastes in a plastic bag for disposal and seal it tightly. Remove, clean, or dispose of contaminated clothing.

6.4 Reference to other sections

For disposal see section 13.
